

Searching for Scripture on ATLA

To access the ATLA Religion database open a browser and go to the WTS Library resources website
www.wartburgseminary.edu →resources menubar→library

click “library”

On the right side of the screen click “research tools”

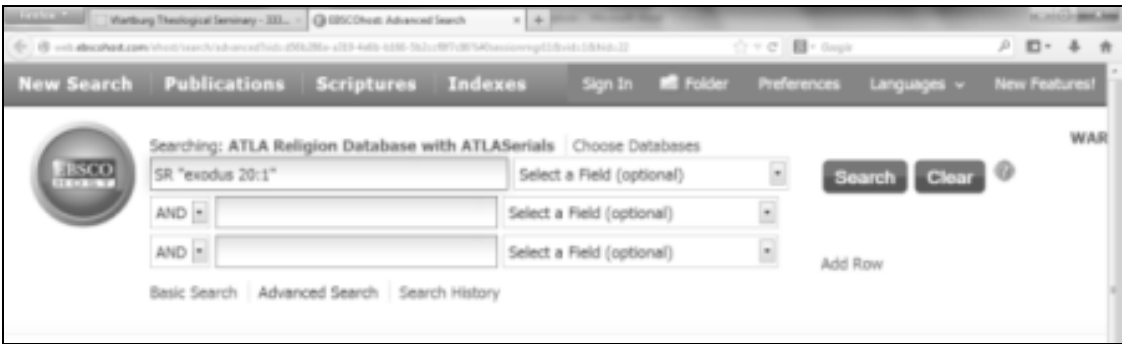

Top of the list is “ATLA Religion Database (EBSCOhost): Indexes religious and theological literature with full-text for some of the articles.”
Click the link.

In ATLA:

To find articles on a verse of scripture:
There are two ways:

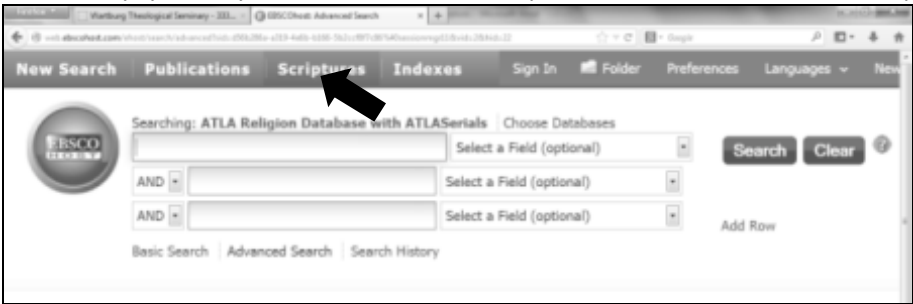

The First:

In the search bar you may enter: [SR “book ch#:vs#”](example: [SR “exodus 20:1”])
Writing “SR” will search under only the scripture category

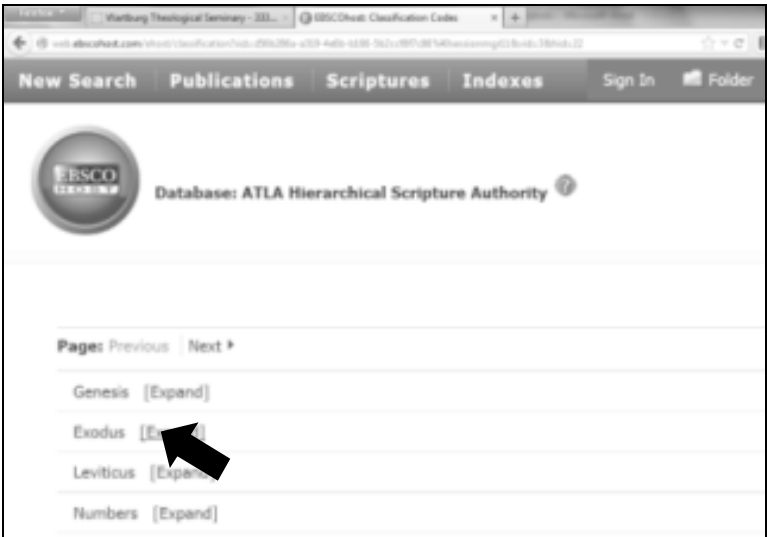

The Second:

Alternately, you may use the menu at the top of the screen and click on Scriptures

Next choose either the book you are looking for, or to find a specific chapter/verse click “[Expand]” next to the book.

Do this again on the chapter to find specific verses.
