You are invited to join a group of learners and practitioners wanting to enhance their cultural and ministry competency to help start or strengthen Latine and Bilingual worshipping communities. This virtual 10-hour workshop will explore core principles learned in USA, Mexico, and Latin America contexts, current ministry models and best practices in the development of ministry among the diversity of Latine audiences: new immigrants, established people, and new emerging generations.

This initiative is part of an ELCA churchwide effort to “activate ourselves so that more people may know the way of Jesus and experience community, justice and love.”
